

Partnerships

Intelligence Community (IC)

Guiding and coordinating strategic air domain intelligence initiatives and activities within the IC.

Non-IC USG Agencies

Supporting and collaborating with non-IC departments and agencies with significant air domain safety and security missions and equities.

Private Sector

Advocating for improved information sharing between aviation private sector and industry. Leveraging private sector industry and invaluable sources of civil aviation expertise to identify new threats, vulnerabilities, and opportunities to strengthen the safety and security of the global air domain.

International

Building progressive traditional and non-traditional partnerships with allies as well as international public and private stakeholders to inform international policy decisions and help bridge intelligence and information sharing gaps.
